

TTTECH INDUSTRIAL

WHO WE ARE AND WHAT WE DO

TTTECH Industrial aspires to unlock the incredible potential of industrial automation. It combines transformative technologies with hands-on experience in critical real-time systems, software, hardware, and safety engineering to offer customers flexibility, reliability and choice.

TTTECH Industrial works with its customers to achieve their goals of smarter automation, better data access and more flexible manufacturing with industrial IoT solutions. TTTECH Industrial serves the industrial and energy markets with its IIoT platform Nerve and customized software and hardware engineering solutions.

With product platforms that combine traditional automation functionality with secure access to IT services and deterministic connectivity, TTTECH Industrial delivers simple and effective ways to bring IoT to industrial systems.

TTTECH Industrial is part of the TTTECH Group, a leading provider of safe networked computing platforms, with cross-industry experience from 25 years of operation.

SHAPING THE FUTURE OF OPEN AND AUTONOMOUS INDUSTRY

TTTECH Industrial offers a comprehensive product and service portfolio that enables customers to realize their IIoT projects quickly and cost-effectively.

Nerve is a cloud-managed edge computing platform that delivers openness, security, flexibility, and real-time data. Nerve provides a software infrastructure for the plant floor and the cloud that enables users to access data, manage devices and deploy applications remotely. The entire system can run offline as well.

The certification of TTTECH Industrial and its IIoT platform Nerve according to the industrial cybersecurity norm IEC 62443 ensures secure product development processes and lifecycles, and thus provides the basis for compliance with NIS2 and the Cyber Resilience Act (CRA).

TTTECH Industrial also offers a range of software, hardware, and safety engineering services as well as consulting services for industrial companies.

TTTECH INDUSTRIAL

PART OF	TTTECH Group
MAIN LOCATION	Vienna, Austria
EMPLOYEES	20
MARKETS	Manufacturing, energy
GLOBAL PRESENCES	Austria

TTTECH INDUSTRIAL OFFERING

**CONNECTIVITY AND OPEN EDGE
COMPUTING PLATFORMS FOR THE IOT**

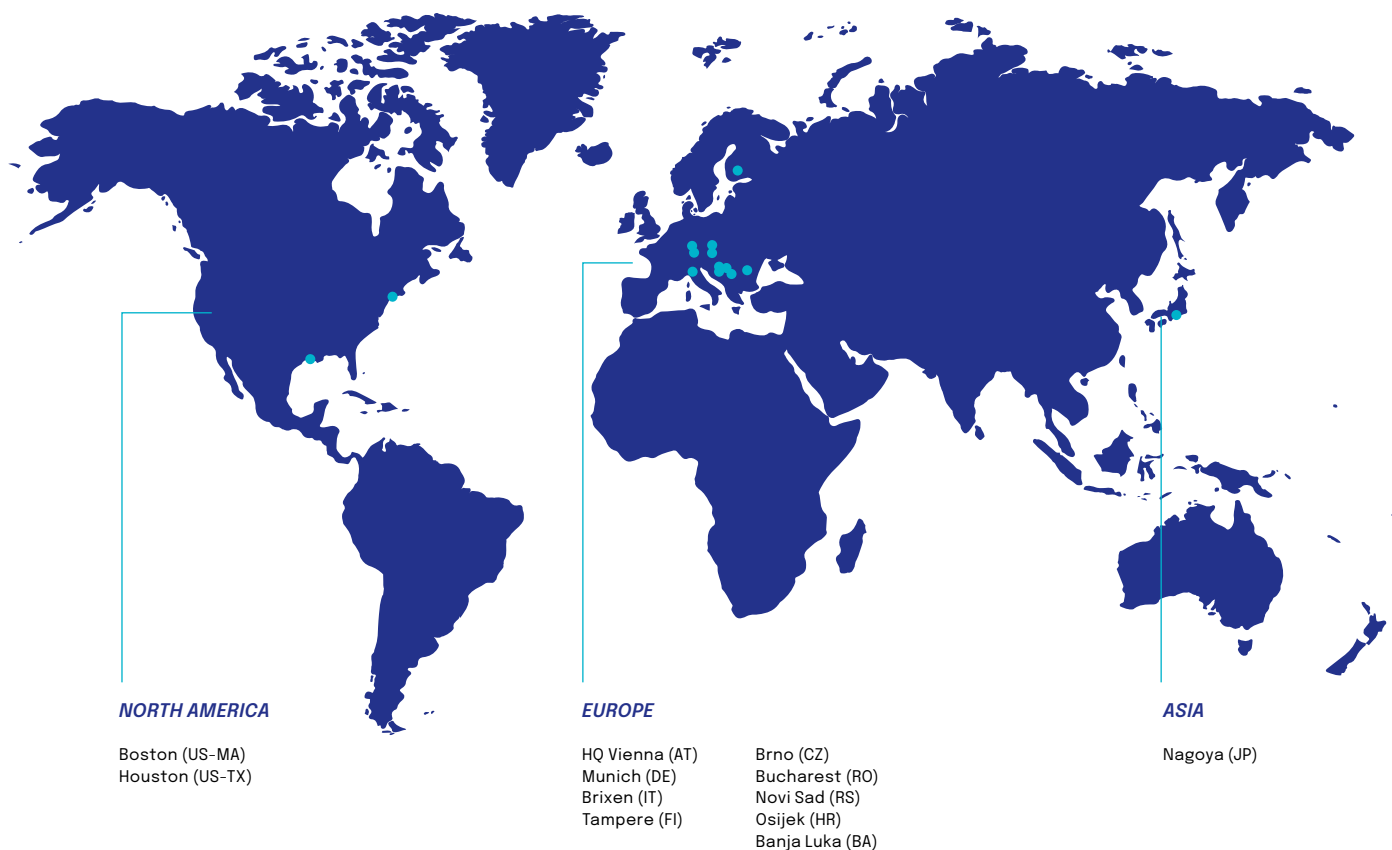

**SOFTWARE, HARDWARE,
AND SAFETY ENGINEERING
SERVICES AND CONSULTING**

INDUSTRIAL IOT

Nerve: IIoT platform for
machine builders
