

Who we are and what we do

The TTTech Group consists of globally oriented high-tech companies, founded and headquartered in Vienna, Austria. TTTech Computertechnik AG, TTControl GmbH and TTTech Auto AG operate under the umbrella of the TTTech Group. The companies offer products and services based on highly innovative software technology combined with a deep understanding of digital transformation in key verticals. TTTech Group companies are part of a global ecosystem of customers and partners from different domains, research institutions and organizations. TTTech Group builds on 20 years' technology leadership with extensive experience in collaborating with market leaders.

With its real-time networking platforms and safety controls, TTTech Group's solutions improve the safety and reliability of electronic systems in the industrial and transportation sectors and help to make the Internet of Things and automated driving a reality. TTTech Group transfers proven aerospace network technology to mass markets like automotive and manufacturing. TTTech is the innovator of Deterministic Ethernet and a driving force behind the IEEE TSN standard and SAE Time-Triggered Ethernet standard.

1,400 employees from 42 nations work in more than 12 countries for TTTech Group companies, ensuring close proximity to its international customer base as well as to its valued partners around the globe.

Our origin

TTTech was founded in 1998 as a spin-off from TU Wien (Technical University of Vienna), building upon 30 years of research in Europe and the US. The TTTech Group companies have continued with extensive research and development that provides the core technologies for products and services in safety-critical areas. As research is a vital source for innovation, the TTTech Group companies also participate in research programs and maintain close ties to research organizations across the globe.

TTTech Group Facts
